SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product form: Mixture
Product name: CAFCO® 300
Type of product: Fire protective spray.

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.2.1. Relevant identified uses

Main use category: Professional use
Use of the substance/mixture: Fire protection in buildings.

1.2.2. Uses advised against

No additional information available

1.3. Details of the supplier of the safety data sheet

Supplier
Siniat S.A. - Le Pin
3 Route de Claye

1.4. Emergency telephone number

Emergency number: Please contact a regional poison center or emergency telephone number.
SECTION 2: Hazards Identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP]

Not classified

Adverse physicochemical, human health and environmental effects

To our knowledge, this product does not present any particular risk, provided it is handled in accordance with good occupational hygiene and safety practice.

2.2. Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

No labelling applicable

2.3. Other hazards

Other hazards not contributing to the classification:

- By handling and processing the product, airborne dust can be released. - As with most types of nuisance dust, excessive inhalation of dust may cause irritation of the airways. - Eye contact with dust may lead to transient eye irritation or inflammation. - Prolonged skin contact may lead to skin irritation. Natural contamination of some substances of the preparation with crystalline silica could occur. No crystalline silica is added to the preparation. According to IARC, crystalline silica inhaled in the form of quartz dust is carcinogenic to humans (Group 1). The inhalation of quartz containing dust, in particular the fine dust fraction (respirable size), in high concentrations or over repeated or prolonged periods of time can be hazardous to health and may lead to chronic lung disease and an increased risk of lung cancer. This risk will be minimal if correct working practices are observed and applied. (Refer to Section 8).

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

Full text of H-statements: see section 16
SECTION 4: First aid measures

4.1. Description of first aid measures

First aid measures general
IF exposed or concerned: Get medical advice/attention.

First-aid measures after inhalation
Remove person to fresh air and keep comfortable for breathing. Rinse throat with water and blow nose to evacuate dust.

First-aid measures after skin contact
Remove all dust as much as possible. Wash skin with plenty of water. Remove contaminated clothing.

First-aid measures after eye contact
Do not rub the eye. Rinse immediately with plenty of water. If eye irritation persists: Get medical advice/attention.

First-aid measures after ingestion
Rinse mouth thoroughly with water. Seek medical advice.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/effects after inhalation
May cause irritation to the respiratory tract and to other mucous membranes.

Symptoms/effects after skin contact
Prolonged skin contact may lead to skin irritation for sensitive persons.

Symptoms/effects after eye contact
Contact may result in mechanical irritation.

Symptoms/effects after ingestion
Not expected to present a significant ingestion hazard under anticipated conditions of normal use.

4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media
All extinguishing media can be used. The product is non-combustible. Packaging may burn. Use extinguishing agent suitable for surrounding fire.

5.2. Special hazards arising from the substance or mixture

Hazardous decomposition products in case of fire
Toxic fumes may be released. Carbon oxides (CO, CO2). At high temperatures (>1200°C) sulphur trioxide will be produced.

5.3. Advice for firefighters

Protection during firefighting
Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel

Protective equipment
Wear recommended personal protective equipment.

Emergency procedures
Do not breathe dust. Avoid contact with skin and eyes. Dampen down any dust or use vacuum cleaner with correct filter. Ventilate spillage area.

Measures in case of dust release
Prevent spread of dust.

6.1.2. For emergency responders

No additional information available

6.2. Environmental precautions

Avoid release to the environment. Do not allow entry to drains, sewers, water courses or soil.

6.3. Methods and material for containment and cleaning up

For containment
Use closed containers to avoid dust release.

Methods for cleaning up
Dampen down any dust or use vacuum cleaner with correct filter. Minimise generation of dust. Collect spills and put it into appropriated container.

Other information
Dispose of materials or solid residues at an authorized site.

6.4. Reference to other sections

See sections 7, 8 and 11.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling
Avoid dust formation.

By generation of dust during processing, the regulatory Occupational Exposure Limits or Workplace Exposure Limits in the UK, for total and respirable dust must be respected. Work in a well ventilated area. Use tools with appropriate dust exhaust equipment. Use always respiratory protective equipment when exposures are likely or can be foreseen to exceed the Occupational Exposure Limits (refer to local regulations). Collect dust with a vacuum cleaner or soak with water before sweeping up. Avoid contact with skin and eyes. Avoid dust formation. Ensure prompt removal from eyes, skin and clothing.

Hygiene measures
Use good housekeeping practices to avoid rendering dust airborne. Do not eat, drink or smoke when using this product. Always wash hands after handling the product.
7.2. Conditions for safe storage, including any incompatibilities

Storage conditions: Store in a dry, cool and well-ventilated place. Protect against frost. Protect from moisture. Keep bags closed when not in use. Keep out of the reach of children. Keep away from food, drink and animal feeding stuffs.

7.3. Specific end use(s)

Fire protection in buildings.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

</tr>
<tr>
<td></td>
<td>Additional information: Exposure limit values have been established by many authorities. Check on limit values that apply in your local situation. Ensure all national/local regulations are observed.</td>
</tr>
</tbody>
</table>

8.2. Exposure controls

Appropriate engineering controls:
Provide adequate ventilation to minimize dust concentrations. Ensure exposure is below occupational exposure limits (where available).

Hand protection:
Use chemical resistant, impermeable gloves.

Eye protection:
Safety glasses with side shields. Foresee eye cleaning on the workplace.

Skin and body protection:
Use loose work clothes with closed sleeves.

Respiratory protection:
Use appropriate respiratory equipment when exposures are likely or can be foreseen to exceed the Occupational Exposure Limits or Workplace Exposure Limits for the UK (e.g. for exposures up to 10 times the OEL (WEL) use at least a P2 type dust mask. For higher exposure, use a P3 type mask).

Environmental exposure controls:
Avoid release to the environment.

1/06/2015 (Version: 1.0) 31/01/2019 (Version: 2.0)
9.2. Other information
No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity
Reacts exothermically with water (moisture).

10.2. Chemical stability
Stable under normal conditions.

10.3. Possibility of hazardous reactions
No dangerous reactions known under normal conditions of use.

10.4. Conditions to avoid
None under recommended storage and handling conditions (see section 7).

10.5. Incompatible materials
Acids.

10.6. Hazardous decomposition products
Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity (oral) : Not classified
Acute toxicity (dermal) : Not classified
Acute toxicity (inhalation) : Not classified
Skin corrosion/irritation : Not classified
Additional information : May cause slight irritation to the skin
Serious eye damage/irritation : Not classified
Additional information : May cause slight temporary irritation
Respiratory or skin sensitisation : Not classified
Germ cell mutagenicity : Not classified
Carcinogenicity : Not classified
Reproductive toxicity : Not classified
STOT-single exposure : Not classified
Additional information : May cause respiratory irritation.
STOT-repeated exposure : Not classified
Aspiration hazard : Not classified
Other information : No experimental study on the product is available. The information given is based on our knowledge of the components and the classification of the product is determined by calculation. Some raw materials may contain traces of natural occurring quartz. The inhalation of dust containing crystalline silica, in particular the fine (respirable) dust fraction, in high concentrations or over a prolonged period of time may lead to lung disease (silicosis) and an increased risk of lung cancer.

SECTION 12: Ecological information

12.1. Toxicity
Ecology - general : The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.
Acute aquatic toxicity : Not classified
Chronic aquatic toxicity : Not classified

12.2. Persistence and degradability

CAFCO® 300
Persistence and degradability : Not readily biodegradable.

12.3. Bioaccumulative potential

CAFCO® 300
Bioaccumulative potential : Not expected to bioaccumulate.

12.4. Mobility in soil
No additional information available

12.5. Results of PBT and vPvB assessment
No additional information available

12.6. Other adverse effects
Additional information : Avoid release to the environment. Do not allow entry to drains, sewers, water courses or soil.
SECTION 13: Disposal considerations

13.1. Waste treatment methods
- Waste treatment methods: Handle as construction industry waste. Dispose in a safe manner in accordance with local/national regulations.
- Product/Packaging disposal recommendations: Do not allow entry to drains, sewers, water courses or soil.
- European List of Waste (LoW) code:
  - 17 08 00 - gypsum-based construction material
  - 17 08 02 - gypsum-based construction materials other than those mentioned in 17 08 01
  Please refer to the European list (Decision N° 2014/955/CE as modified) to identify the wastes appropriate waste number.

SECTION 14: Transport information

<table>
<thead>
<tr>

</tbody>
</table>

No supplementary information available

14.6. Special precautions for user
- Overland transport: Not regulated
- Transport by sea: Not regulated
- Air transport: Not regulated
- Inland waterway transport: Not regulated
- Rail transport: Not regulated

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code
Not applicable

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.1.1. EU-Regulations
- Contains no REACH substances with Annex XVII restrictions
- Contains no substance on the REACH candidate list
- Contains no REACH Annex XIV substances

15.1.2. National regulations
No additional information available

15.2. Chemical safety assessment
No chemical safety assessment has been carried out

SECTION 16: Other information

Indication of changes:
This sheet has been revised completely (changes were not marked).

Safety Data Sheet applicable for regions: CY; GB; GI; IE; IS; MT

SDS EU (REACH Annex II) custom

The Safety Information given in this document was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This Safety Information was prepared and is to be used only for this product. If the product is used as a component in another product, this Safety Information may not be applicable.

This data sheet and the information it contains is not intended to supersede any terms or conditions of sale and does not constitute a specification. Nothing contained herein is to be construed as a recommendation for use in violation of any patent or applicable laws or regulations.
